## **Its official. Hearing aids can do more than improve your hearing.**

Following a survey carried out in 2015 by Anovum ( a market research company) on 1325 hearing impaired people (605 hearing aid wearers and 720 not wearing hearing aids ). The survey reports that hearing aids not only improve capabilities of hearing well but also improved the general health of hearing aid wearers compared to hearing impaired people who do not wear a hearing aid. Hearing aid users are less likely to think they have the symptoms of dementia, feel less physically and mentally exhausted, sleep better and are less likely to suffer from depression.

The survey confirms what some Audiologists have suspected for some time, that hearing aids are not only good for correcting hearing loss but in fact contribute to better and more active lives, better quality of life, and better overall health.

For the hearing impaired workers who wear a hearing aid it is reported that their hearing aids are useful for their job and that wearing the hearing aids also increases the chance of them getting promoted, being in the right job and getting more salary compared to those hearing impaired people who have not obtained hearing aids.

The survey also found that hearing impaired people are more likely to be teased or harassed because they don't wear a hearing aid compared to those that do.

## A New York twist

DOT Jones and Westerns are set to be on the scene when New York-based band Hot Club of Columbia arrives at The Hollingtree this Saturday, April 5.

Klaus Arnesen, vocalist and guitarist, and John Green, double bass, arrived at the Gwent Road venue as part of a UK tour.

The trio are showcasing their new album 'Midnight on the Train' released in 2013.

"We sold the 'Midnight'... Our music has always been made up of many different kinds of music from soul and all types."

"We have always played with a lot of energy and excitement, but I think it is our sincerity and ability to play sincerely to the audience that makes us stand out."

"We suggest the audience make them a part of the music and the show and we will play what we love and the music is a beautiful and natural sound."

Hot Club of Columbia was named after the Hot Club of France, a band made up of popular 1930s swing music artists Django Reinhardt and

By James Richards

guitarist and Stéphane Lévesque on vocals.

Their tracks include 'Midnight on the Train' and 'John Green's new band'.

"The recordings were a huge achievement as we had no time to do them with our music. The Club of Columbia 'Midnight'."

"The latter was also obviously taking a bit of a twist from the original in the music."

The last 10 years have seen band members all over the world. In that time they have also recorded 12 albums and have toured all over the world.

And the three do not plan on stopping their musical journey any time soon.

"You have to follow your heart, listen to your music, work your hard, and the audience will reward you."

Hot Club of Columbia

"If we want to expand our audience, we should really see the world. Let's be like: live or appreciate our life."

**DEBUT** before the release of her latest album 'Head Heart Hand' singer songwriter Megan Hewson will be at the Unicorn Theatre in Milton Keynes Thursday April 14.

The 28 year old, who grew up in Banbury, is making the Unicorn debut venue as part of a series of shows in the north of England.

The album is Megan's second, following from her last nearly five years previous.

She told the Guardian she didn't want to write material for her last record.

"It was a very collective album for me," Megan told the Guardian.

Looking back to when it was five years previous had been somewhat of a relief because it is supposed the changes and experience I had found during that time were my main source of inspiration.

It has such memories there as a running theme of the album and the moment when it was born. It means a lot to me to be heard.

"The machine has looked at Malaysia, Thailand, India and Nepal as well as parts of France to make a sense of herself."

And storylines of her work Megan

released her debut album 'Stoking Words' in 2011.

On the night she will be supported by local band the Shakes and the Shakes.

Megan said "I was certainly proud and excited about 'Stoking Words' being released along with many other things."

"It was a difficult time for me as it was hard to concentrate on everything that was going on."

"But I was so grateful to my brother and successful and through experience such as Peter Knight and myself for Phil helping me to get up and going on stage the second release."

Tickets for the gig at the Unicorn Theatre cost £15 and it starts from 7.30pm.

She said: "It was a challenging and very humbling experience when you are able to achieve that through exchange with me."

"It is an extraordinary thing and I have been lucky enough to be able to do many things, including making a record. I'm sure that The Unicorn will be disappointed."

## Peugeot 308 GTi

Ford's sensitive road test puts out to the steering wheel the new Peugeot 200 GT. Many people have been waiting for the arrival of the 200 GT for some time - hoping that Peugeot can improve the same on the GT class.

So, did Peugeot get it right?  
Power and efficiency. Let's get  
straight to the business end shall we?  
Filling and 0-60 in 4 seconds. Over  
running on its lap and out of sight.

## No More Victims

This performance comes from a finely tuned 1.8-liter Turbo petrol engine that sounds like it's trying to escape from its shackles under that brilliantly designed chrome fuel economy air also good with a confined fit snug.

**Can the result?** The list is a playful sports bet, but it is not only powerful and safe, but can also be a practical investment.

Is what makes the net a real GPU?

Well, underneath you will find an exciting character dynamics and provide a superb drawing material.

It's also quite reactive and has a massive form of balance, from one

**Design and Interior:** The 380 GT offers a first-time experience that is achieved through a combination of interior quality, attention to detail and a wide range of equipment.

There can be no doubting the sportiness in the brand as athletic city-style looks right up to the cool, strong with the red stitching features on the dashboard.

**Yucksteering:** Inside it's all good. There's plenty of standard fat like a Dark Fudge that some channels control. That's what Standard's leader steering wheel, electric front windows, colour navigation, along with a whole load of lot that would take me ages to write if I about here. To sum up, it like the Dreamed a lot. It gives you all the things you want from a proper CD.
